Subject index

Adrenalectomy
Long-term outcome in patients with adrenal metastases following resection of colorectal liver metastases, 935

Anatomy
Territorial belonging of the middle hepatic vein in living liver donor candidates evaluated by three-dimensional computed tomographic reconstruction and virtual liver resection, 206

Aneurysm
Advantage of a one-stop referral and management service for ruptured abdominal aortic aneurysm, 1416
Colonic ischaemia and intra-abdominal hypertension following open repair of ruptured abdominal aortic aneurysm, 621
Haemostatic and fibrinolytic factors in men with a small abdominal aortic aneurysm, 870
Long-term outcome of endovascular abdominal aortic aneurysm repair, 447
Long-term surveillance with computed tomography after endovascular aneurysm repair may not be justified, 1280
Possible association between genetic polymorphisms in transforming growth factor β receptors, serum transforming growth factor β1 concentration and abdominal aortic aneurysm, 628

Angiogenesis
Angiogenesis, vascular endothelial growth factor and its receptors in human surgical wounds, 1484

Anus
Blinded randomized clinical trial of botulinum toxin *versus* isosorbide dinitrate ointment for treatment of anal fissure, 1393
Measurement of anal cushions in idiopathic faecal incontinence, 680
Outcome of surgical treatment for fistula *in ano* in Crohn's disease, 675
Outcomes following Turnbull–Cutait abdominoperineal pull-through compared with coloanal anastomosis, 424
PTQ™ anal implants for the treatment of faecal incontinence, 1468
Randomized clinical trial of anal fistula plug *versus* endorectal advancement flap for the treatment of high cryptoglandular fistula *in ano*, 608

Aorta
Advantage of a one-stop referral and management service for ruptured abdominal aortic aneurysm, 1416
Haemostatic and fibrinolytic factors in men with a small abdominal aortic aneurysm, 870
Long-term outcome of endovascular abdominal aortic aneurysm repair, 447
Long-term surveillance with computed tomography after endovascular aneurysm repair may not be justified, 1280
Possible association between genetic polymorphisms in transforming growth factor β receptors, serum transforming growth factor β1 concentration and abdominal aortic aneurysm, 628

Appendix
Genetic and environmental influences on the risk of acute appendicitis in twins, 1336
Randomized clinical trial of antibiotic therapy *versus* appendicectomy as primary treatment of acute appendicitis in unselected patients, 473

Artery
Conservative management of symptomatic spontaneous isolated dissection of the superior mesenteric artery, 720
Prolonged survival after hepatic artery embolization in patients with midgut carcinoid syndrome, 517
Randomized clinical trial of folate supplementation in patients with peripheral arterial disease, 990

Audit
Cost-effectiveness and quality-of-life analysis of physician-staffed helicopter emergency medical services, 1365
Two-week target for laparoscopic cholecystectomy following gallstone pancreatitis is achievable and cost neutral, 751

Axilla
Impact on regional recurrence and survival of axillary surgery in women with node-negative primary breast cancer, 40
Sympathetic nerve damage as a potential cause of lymphoedema after axillary dissection for breast cancer, 865

Bile duct
Laparoscopic common bile duct exploration using a rigid nephroscope, 412
Photodynamic therapy for biliary tract cancer, 225

Biopsy
Sentinel lymph node biopsy in breast cancer guided by indocyanine green fluorescence, 1289
Sentinel node biopsy for follicular tumours of the thyroid gland, 490

Blood
Diagnosis and management of coagulopathy after major trauma, 963
Haemostatic and fibrinolytic factors in men with a small abdominal aortic aneurysm, 870
Leucocyte depletion of perioperative blood transfusion does not affect long-term survival and recurrence in patients with gastrointestinal cancer, 734
Randomized clinical trial of preoperative intravenous iron sucrose to reduce blood transfusion in anaemic patients after colorectal cancer surgery, 1122
